HEALTHCARE & WELLNESS GUIDE
==

1. DAILY PREVENTIVE HEALTHCARE

• Nutrition & Hydration:
  - Drink at least 8 to 10 glasses (2–2.5 liters) of water daily.
  - Eat a balanced diet rich in whole grains, green vegetables, and lean proteins.
  - Reduce intake of processed sugars, excessive salt, and saturated fats.

• Physical Activity:
  - Engage in 30 minutes of moderate aerobic exercise (walking, jogging, cycling)
    at least 5 days a week.
  - Incorporate stretching and strength exercises to improve posture and joint health.

• Sleep Hygiene:
  - Maintain a consistent sleep schedule by sleeping and waking at the same times.
  - Aim for 7 to 9 hours of uninterrupted sleep each night.
  - Keep electronic screens away at least 30 minutes before bedtime.

----

2. MENTAL HEALTH & WELLBEING

• Stress Management:
  - Practice daily deep-breathing or mindfulness meditation for 10 minutes.
  - Balance work and rest to avoid physical and emotional burnout.

• Social Connection:
  - Stay regularly connected with family, friends, or support networks.
  - Do not hesitate to consult a mental health professional if feeling overwhelmed.

----

3. REGULAR MEDICAL CHECK-UPS

• Routine Health Screening Schedule:
  - Blood Pressure & Heart Rate: Checked at least once every year.
  - Complete Blood Count (CBC) & Sugar (HbA1c): Checked annually.
  - Lipid Profile (Cholesterol): Checked every 1 to 2 years.
  - Vision & Dental Screening: Checked once every year.

• Vaccination & Immunization:
  - Keep track of annual flu shots and necessary booster vaccines.

---

4. FIRST-AID & EMERGENCY READY KIT

Every home should maintain a first-aid kit containing:
  [x] Antiseptic liquid and wipes
  [x] Bandages, sterile gauze, and medical tape
  [x] Digital thermometer
  [x] Pain relievers / Antipyretics (e.g., Paracetamol)
  [x] ORS (Oral Rehydration Salts)
  [x] Contact numbers for local emergency services and your primary doctor
